## Atlas Guide Handbook Marathon Messier Observing:

**The Observing Guide to the Messier Marathon** Don Machholz,2002-10-10 The Messier Catalogue is a list of one hundred and ten galaxies star clusters and nebulae and includes many of the brightest and best known objects in the sky Amateur astronomers who find all the objects on the list in one night have successfully completed the Messier Marathon The Observing Guide to the Messier Marathon contains over 90 easy to use star maps to guide the observer from one object to the next and provides tips for a successful night of observing Don Machholz also tells the story of the eighteenth century astronomer Charles Messier and how he came to compile his extensive catalogue His complete guide to the Messier Marathon will help the amateur astronomer to observe the Messier Objects throughout the year using a small telescope or even a pair of binoculars Don Machholz is an engineer in Auburn California Interested in astronomy since childhood he is a renowned comet hunter having discovered nine comets that bear his name He writes articles for local California newspapers and radio stations for special astronomical events Between 1988 and 2000 Don Machholz was the Comets Recorder for the Association of Lunar and Planetary Recorders

[Atlas of the Messier Objects](#) Ronald Stoyan,2024-03-28 Messier s catalog

of 110 star clusters nebulae and galaxies is the most popular list of deep sky gems The first edition of this stunning reference atlas was hailed as the most comprehensive detailed and beautiful account of the Messier objects then available The second edition continues this trend with thoroughly investigated and updated astrophysical historical and observational information for every object The main object photos have all been replaced with more than 150 new images from some of the world s best amateurs displaying the objects splendor through large scale color images Historical sketches from classical observers from the nineteenth century are presented alongside the author s modern deep sky drawings Extensive information is given on visual observation from using the naked eye and binoculars through to large modern amateur telescopes Astronomers of all abilities will delight in the Atlas s return as your guide to the sky s finest objects

**Binocular Stargazing** Mike D

Reynolds,2023-06-14 A guide to viewing stars the moon planets meteors comets and more through binoculars Many stargazers assume they must invest hundreds or even thousands of dollars in equipment before they can enjoy the wonders of the night sky The truth is though that all you need is a simple pair of binoculars This handy guide explains how to choose binoculars This handy guide explains how to choose binoculars and use them to observe everything from comets to solar eclipses Ideal for amateur astronomers of all ages Binocular Stargazing is the perfect way to see the night sky through new eyes Information on current binocular brands and models Extensive catalog of celestial objects Lists of what to look for in each season Instructions for safely viewing eclipses Tips on recording your observations
