

## Chemical Bonds

Three students were talking about chemical bonds. They each had a different idea:

**Janie:** I think a chemical bond is a substance produced by a molecule to hold the atoms together.

**Wills:** I think a chemical bond is an attractive force between atoms in a molecule.

**Letas:** I think a chemical bond is a physical part of an atom that connects it to other atoms in a molecule.

Which student do you agree with the most? \_\_\_\_\_ Provide an explanation for your answer.
