

How to help a child with

# Auditory Processing Disorder

Break down tasks into  
smaller chunks

Be concise with  
instructions, dont  
attempt long  
explanations

Constant review and  
praise will encourage  
success

Write a list of instructions  
on the board

Speak slowly  
and enunciate  
clearly

As much as possible  
show rather than tell

Minimise distractions  
when instructions are  
given

Make sure children can  
watch your mouth as  
you speak

Allow 'lag time' while  
children process the  
instructions

# Auditory Processing Disorder Symptoms

**Gail D. Chermak, Frank E. Musiek**
