Answer I have extensive experience with various accounting software platforms I have worked with QuickBooks, SAP and Microsoft Dynamics and I am also familiar with Oracle Financial Services. I have used these systems for tasks ranging from financial reporting and reconciliation to managing accounts payable and receivable. My experience includes setting up and customizing reports, handling data migration and providing training to team members on these platforms. 2. How do you ensure accuracy and compliance in financial reporting? Answer Ensuring accuracy and compliance involves a combination of rigorous procedures and ongoing oversight. I start by adhering to established accounting standards and regulations such as GAAP or IFRS. I implement internal controls and review processes to catch and correct errors. Additionally, I regularly perform reconciliations and audits of financial statements and work closely with external auditors to ensure compliance with regulatory requirements. 3. Can you provide an example of a complex accounting problem you've solved? Answer Certainly. At my previous job, we faced a complex issue with intercompany transactions where the reconciliation was not aligning due to discrepancies in reporting between different subsidiaries.
