through a meticulous peer review process involving contributions from various RUC APS international conferences held between 2021 and 2023. It delves into the pressing need to address the challenges faced by modern agricultural systems particularly agricultural value chains amidst volatile and uncertain environmental conditions. The ever changing landscape of resources coupled with factors like unpredictable weather patterns, pest infestations, market fluctuations and fluctuating commodity prices necessitates a holistic and adaptive approach to ensure resilience and sustainability across the agricultural value chain. Navigating these complexities requires informed decision making processes that account for risks throughout the entire agricultural lifecycle. The complexity of these decision making paradigms underscores the critical importance of this book and the insights gleaned from the RUC APS Project. By shedding light on multifaceted challenges and proposing innovative solutions this collaborative effort aims to pave the way for a more resilient and sustainable agricultural landscape.

Disorder Peter A. Swenson, 2021-11-30 An incisive look into the problematic relationships among medicine, politics and business in America and their effects on the nation's health. Meticulously tracing the dramatic conflicts both inside organized medicine and between the medical profession and the larger society over quality, equality and economy in health care, Peter A. Swenson illuminates the history of American medical politics from the late nineteenth century to the present. This book chronicles the role of medical reformers in the progressive movement around the beginning of the twentieth century and the American Medical Association's dramatic turn to conservatism later. Addressing topics such as public health, medical education, pharmaceutical regulation and health care access, Swenson paints a disturbing picture of the entanglements of medicine, politics and profit seeking that explain why the United States remains the only economically advanced democracy without universal health care. Swenson does however see a potentially brighter future as a vanguard of physicians push once again for progressive reforms and the adoption of inclusive, effective and affordable practices.

English Medium Instruction in Multilingual and Multicultural Universities Birgit Henriksen, Anne Holmen, Joyce Kling, 2018-07-17 English Medium Instruction in Multilingual and Multicultural Universities analyses the issues related to EMI at both a local and international level and provides a broad perspective on this topic. Drawing on field studies from a Northern European context and based primarily on research carried out at the University of Copenhagen, this book introduces a topical global issue that is central to the higher education research agenda. It identifies the issues and challenges involved in EMI in relation to central linguistic, pedagogical, sociolinguistic and socio-cultural concepts. It captures university lecturers' experiences in the midst of curricular change and presents reflections on ways to navigate professionally in English to meet the demands of the multilingual and multicultural classroom. English Medium Instruction in Multilingual and Multicultural Universities is key reading for researchers, pre- and in-service teachers, university management, educational planners and advanced students with an interest in EMI and the multilingual, multicultural university setting.
