Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity It concludes with an account of the End of History involving the coming of Antichrist and his battle with a Last World Emperor Approximately 100 manuscripts written between the mid 11th and the 16th centuries survive which testify to the Tiburtina's immense popularity in the medieval West as such it is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages This book not only re-examines the Tiburtina as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World but offers a new approach by placing it for the first time in the context of medieval traditions which saw Sibylline prophecy as independent non Christian evidence of Christ's life and as confirmation of His divinity As is shown these traditions had a major impact on the reception of the Tiburtina The book concludes with a repertory of the manuscripts together with brief outlines of individual textual traditions as represented in groups of manuscripts which will constitute a valuable reference source for other scholars **The Jewish Quarterly**
