E. Cabell, 1998     **SF Writer** John J. Ruszkiewicz, Maxine Hairston, Daniel E. Seward, 1999 With *SF Writer 2* the authors did more than offer a revision they created a new kind of handbook *SF Writer 2* takes the writer in its title seriously From its opening paragraph to its concluding almanac the handbook examines the writing process today from the perspective of writers young and old learning new roles and reaching new audiences The style of *SF Writer* is energetic and witty the advice fresh and contemporary the design ground breaking Almost every major element of *SF Writer* is new or significantly revised beginning with an organization that removes the barriers between writing and research While most handbooks put the chapters on research in back of the book *SF Writer* locates these essential strategies up front in Part II Thinking and Research This new arrangement helps writers appreciate better the connection between college research and other essential activities such as Reading Critically and Writing Persuasively also examined in Part II Equally fresh is Part I Working as a Writer which presents writing as a dynamic activity grounded in practical choices and familiar genres *Writer* also includes an innovative chapter on Evaluating Writing No other handbook in *SF Writer*'s field covers this sensitive but important topic *SF Writer* breaks new ground too in expanding its coverage of document design and writing for the Web A full section is now devoted to these subjects featuring fresh material and rich illustrations Uniquely *SF Writer* treats the design of print and electronic documents as a process like writing itself *SF Writer* embodies these design principals in a volume full of carefully chosen images and photographs from section dividers that showcase the work of writers to an almanac featuring timelines of notable texts and authors It's not an accident that *SF Writer* looks exceptionally fresh and contemporary In this edition the media is part of the message Yet *SF Writer* doesn't forget its responsibilities as a guide to grammar mechanics usage and documentation Its coverage in these areas is unsurpassed Yet even here new themes are sounded For example the model MLA paper is by a student teacher wrestling with a state mandate for competency testing undergraduate research in psychology So both papers demonstrate that undergraduates today really can do serious work as writers and reach live audiences     *Research Writing in Education and Psychology--from Planning to Publication* Herbert John Klausmeier, 2001     *The Criminal Justice Student Writer's Manual* William A. Johnson, 1999 The *Criminal Justice Student Writer's Manual* is designed to teach beginning students how to conduct criminal justice research and write papers in the discipline This comprehensive resource frees instructors from having to teach much of the detail of the writing process It is a valuable tool for all criminal justice courses that ask students to write from introductory classes through advanced undergraduate and graduate classes
