Economics in the Long Run Theodore Rosenof,2000-11-09 Though understandably preoccupied with the immediate problems of the Great Depression the generation of economists that came to the forefront in the 1930s also looked ahead to the long term consequences of the crisis and proposed various solutions to prevent its recurrence Theodore Rosenof examines the long run theories and legacies of four of the leading members of this generation John Maynard Keynes of Great Britain who influenced the New Deal from afar Alvin Hansen and Gardiner Means who fought over the direction of New Deal policy and Joseph Schumpeter an opponent of the New Deal Rosenof explores the conflicts that arose among long run theorists arguing that such disputes served eventually to set the stage for the emergence and domination of a short run Keynesian approach to economic policy that collapsed under the impact of 1970s stagflation Tracing the subsequent revival of long run theories Rosenof demonstrates their relevance to an understanding of the economy s problems over the past quarter century and to the current debate over public policy Originally published in 1997 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Kaufman,2019-12-01 Originally published in 1982 Trade and Aid outlines the transition of U S foreign policy during the Eisenhower administration In the years leading up to Eisenhower's election America's predominant foreign economic program was based on the concept of trade not aid which deemphasized foreign aid and relied instead on liberalized world trade and the encouragement of private foreign investment to assure world economic growth When Eisenhower took office in 1953 he embraced this doctrine However as problems in the Third World worsened it became clear to Eisenhower and other architects of American foreign policy that trade and private investment were insufficient solutions to the economic woes of developing nations In 1954 Eisenhower began to embrace economic aid as a core axis of his foreign economic policy Burton I Kaufman contextualizes Eisenhower's foreign policy leadership in the ongoing historical evaluation of Eisenhower's leadership prowess He evaluates the outcomes of the Eisenhower administration's trade and aid program arguing that developing countries were worse off by the time Eisenhower left office      *India and the World Economy 1850-1950* G.
