

# A Guide to Roundabouts

## For drivers, pedestrians and cyclists

A roundabout is a circular intersection that lets drivers slow down and go around until making a turn instead of stopping and waiting.

### Drivers

To drive through a roundabout safely:

#### 1 Slow down

As you approach a roundabout, slow down to the advisory speed and prepare to stop if necessary.

#### 2 Choose the proper lane

If you're approaching a multi-lane roundabout, enter the appropriate lane well in advance of the intersection. Follow the signs showing which lanes can be used for different turns. For example, the sign beside this text means that:

- Right turns must use the right lane.
- Left turns must use the left lane.
- Drivers going straight through may use either lane.

If you're approaching a single-lane roundabout, you may only enter the single lane and must follow all signs.

#### 3 Stop for pedestrians

Just before you reach the roundabout, look for any pedestrians in the crosswalk. Never block the crosswalk.

#### 4 Yield to traffic

When you reach the roundabout, don't go past the yield sign until all approaching traffic is clear. Traffic already inside the roundabout has the right-of-way. If you're in a multi-lane roundabout, make sure that cross traffic is clear in every approaching lane.

#### 5 Drive through roundabout

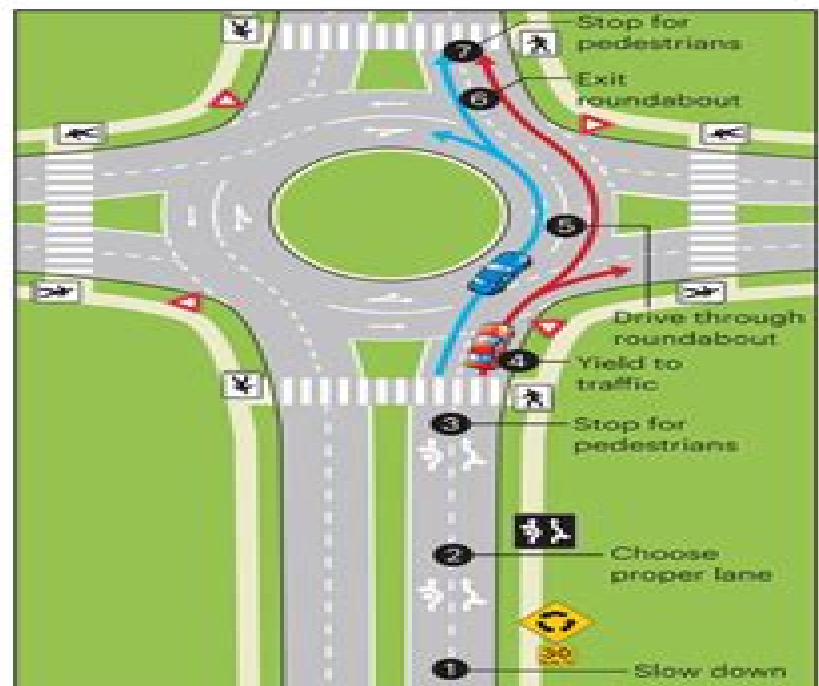

When there is a safe gap in all lanes of approaching traffic, proceed into the intersection, keeping to the right of the center island. If you're in a multi-lane roundabout, you cannot change lanes after entry and must stay in the lane you entered through until exiting the roundabout.

#### 6 Exit the roundabout

Before reaching your desired exit, signal right so that drivers waiting to enter and pedestrians waiting to cross know your intentions.

#### 7 Stop for pedestrians

Watch for pedestrians as you exit the roundabout and stop for any pedestrians crossing.

### What to do if an emergency vehicle approaches

If you're already in the roundabout, finish driving through it and pull over upon exiting so the emergency vehicle can pass.
