Evaluation Data on the Effectiveness of NSF-Supported and Commercially Generated Mathematics Curriculum  
Materials,2004-11-12 This book reviews the evaluation research literature that has accumulated around 19 K 12 mathematics  
curricula and breaks new ground in framing an ambitious and rigorous approach to curriculum evaluation that has relevance  
beyond mathematics The committee that produced this book consisted of mathematicians mathematics educators and  
methodologists who began with the following charge Evaluate the quality of the evaluations of the thirteen National Science  
Foundation NSF supported and six commercially generated mathematics curriculum materials Determine whether the  
available data are sufficient for evaluating the efficacy of these materials and if not Develop recommendations about the  
design of a project that could result in the generation of more reliable and valid data for evaluating such materials The  
committee collected reviewed and classified almost 700 studies solicited expert testimony during two workshops developed  
an evaluation framework established dimensions criteria for three methodologies content analyses comparative studies and  
case studies drew conclusions on the corpus of studies and made recommendations for future research    **Catalog of**
