Services, 1999 **Expanding the Black Film Canon** Lisa Doris Alexander, 2019-08-30 If the sheer diversity of recent hits from *Twelve Years a Slave* and *Moonlight* to *Get Out* *Black Panther* and *BlackkKlansman* tells us anything it might be that there s no such thing as black film per se This book is especially timely then in expanding our idea of what black films are and going back to the 1960s showing us new and interesting ways to understand them When critics and scholars write about films from the Blaxploitation movement such as *Cotton Comes to Harlem* *Shaft* *Superfly* and *Cleopatra Jones* they emphasize their importance as films made for black audiences Consequently Lisa Doris Alexander points out a film like the highly popular Oscar nominated *Blazing Saddles* costarring and co written by Richard Pryor is generally left out of the discussion because it doesn t fit the profile of what a black film of the period should be This is the kind of categorical thinking that Alexander seeks to broaden looking at films from the 60s to the present day in the context of their time Applying insights from black feminist thought and critical race theory to one film per decade she analyzes what each can tell us about the status of black people and race relations in the United States at the time of its release By teasing out the importance of certain films excluded from the black film canon Alexander hopes to expand that canon to include films typically relegated to the category of popular entertainment and to show how these offer more nuanced representations of black characters even as they confront negate or parody the controlling images that have defined black filmic characters for decades New Kid in School Debra Rader, Linda Harris Sittig, 2003 This book provides educators and support staff with viable and inspired ways to meet the particular needs of children in transition This ground breaking volume provides a model of transition education that can be used in all elementary schools public independent and international and is easily integrated into an existing curriculum The authors have chosen quality children s literature as a springboard for learning about transitions and have developed excellent follow up activities to use in the classroom and creative ideas for cross curricular connections Appendices include Children s Literature Resources Suggested Resources Related to Transition and Tips for Parents
