Proceedings of the 2nd UPY International Conference on Education and Social Science (UPINCESS 2023) Ari Kusuma Wardana,2023-12-31 This is an open access book Technology has had a huge impact on education and social dynamics around the world Since the introduction of information and communication technologies ICTs such as the internet smartphones and social media much has changed in the way we learn and interact with others In education technology has enabled students and teachers to

access more diverse and engaging educational resources. With internet access students and teachers can access educational resources from all over the world and learn about various topics and disciplines. In addition, technology also enables distance learning which allows students and teachers to connect from different locations. However, there are also negative impacts of using technology in education. For example, excessive use of social media and the internet can cause concentration disorders and addiction in students. In addition, too much reliance on technology can also reduce students' ability to think critically and solve problems independently. In social dynamics, technology has allowed us to connect with people from all over the world and paved the way for greater collaboration and cultural exchange. However, technology has also brought negative impacts on social dynamics such as the spread of fake news or hoaxes, cyberbullying, and social media addiction. In this regard, technology can be a very useful tool if used wisely and with proper understanding of its impact. Therefore, to support this Universitas PGRI Yogyakarta, was held an international conference and Call for Papers. The 2nd UPY International Conference on Education and Social Science UPINCESS: The Impact of Technology on Education and Social Dynamics on September 27, 2023. The conference aims to discuss in depth about the impact of technology on education and social dynamics as well as finding appropriate solutions and strategies to minimize its negative impact and maximize its benefits. Experts, researchers, and practitioners in the field of education and technology from around the world can share their knowledge and experience in this conference and can encourage collaboration and innovation in this field.

Jerry A. Viscione, Gordon Roberts, 1987 **Insights in Banking Analytics and Regulatory Compliance Using AI** Rana, Sudhir, Aggarwal, Shalini, Jagirdar, Sharneet Singh, Jain, Sanjeev, 2025-04-25. The integration of artificial intelligence AI into banking analytics and regulatory compliance revolutionizes the financial industry, enhancing operational efficiency, improving decision making, and strengthening regulatory adherence. AI-driven analytics enable banks to process data in real time, uncovering valuable insights that can drive personalized services, risk management strategies, and fraud detection. AI enhances the monitoring of financial transactions, automates compliance reporting, and helps identify potential risks related to money laundering, fraud, and illegal activities. By leveraging machine learning algorithms and natural language processing, AI tools can ensure that banks remain up to date with regulations, reduce human error, and mitigate the cost and complexity of compliance. The use of AI in banking analytics and regulatory compliance reshapes the way banks operate and fosters greater transparency, accountability, and trust within the financial ecosystem. **Insights in Banking Analytics and Regulatory Compliance Using AI** focuses on various aspects of the use of AI on business analytics. It explores how AI reshapes the field of business analytics and drives more efficient informed decision making. This book covers topics such as blockchain data science and artificial intelligence and is a useful resource for business owners, policymakers, engineers, academicians, researchers, and data scientists.
