## **2014 Exemplary For November Business Studies For Grade 11:**

The Problem of Social Inequality Scott G. McNall,2015-12-07 Within and among nations rising levels of social inequality threaten our collective future Currently upwards of 80% of people's life chances are determined by factors over which they have absolutely no control Social inequality threatens the democratic project because it destroys the trust on which governments depend and it gives rise to corrupt political and economic institutions How can we get out of the traps we have created for ourselves We need to reboot capitalism Drawing on diverse examples from a range of countries McNall explains the social economic and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies and a set of rules essential for creating a sustainable future

Women

After All Melvin Konner,2015-03-02 A sparkling thought provoking account of sexual differences Whether you're a man or a woman you'll find his conclusions gripping Jared Diamond There is a human genetic fluke that is surprisingly common due to a change in a key pair of chromosomes In the normal condition the two look the same but in this disorder one is malformed and shrunken beyond recognition The result is a shortened life span higher mortality at all ages an inability to reproduce premature hair loss and brain defects variously resulting in attention deficit hyperactivity conduct disorder hypersexuality and an enormous excess of both outward and self directed aggression It is called maleness Melvin Konner traces the arc of evolution to explain the relationships between women and men With patience and wit he explores the knotty question of whether men are necessary in the biological destiny of the human race He draws on multiple colorful examples from the natural world such as the mating habits of the octopus black widow angler fish and jacana and argues that maleness in humans is hardly necessary to the survival of the species In characteristically humorous and engaging prose Konner sheds light on our biologically different identities while noting the poignant exceptions that challenge the male female divide We meet hunter gatherers such as those in Botswana whose culture gave women a prominent place invented the working mother and respected women's voices around the fire Recent human history has upset this balance as a dense world of war fostered extreme male dominance But our species has been recovering over the past two centuries and an unstoppable move toward

equality is afoot It will not be the end of men but it will be the end of male supremacy and a better wiser world for women and men alike *Journal of the Senate, State of Florida* Florida. Legislature. Senate,2015 **Taramoin Tran**

Ngoc-Anh,2021-02-19 The Kanak are New Caledonia's autochthonous people They fail tragically in French schools In 1977 out of 241 students who graduated from high school only 5 8% were Kanak Nickel discovery led to a stupendous economic boom which left the Kanak behind until 1988 In her doctoral dissertation the author showed in 1990 that the cause of failure at school among Pacific Islanders including the Kanak population is the transition from their nonwritten native language to a written teaching language **Unwinding Madness** Gerald S. Gurney,Donna A. Lopiano,Andrew Zimbalist,2016-12-13 A critical look at the tension between the larger role of the university and the commercialization of college sports Unwinding Madness is the most comprehensive examination to date of how the NCAA has lost its way in the governance of intercollegiate athletics and why it is incapable of achieving reform and must be replaced The NCAA has placed commercial success above its responsibilities to protect the academic primacy health and well being of college athletes and fallen into an educational ethical and economic crisis **Accomplishment Report** Philippines.
