and the Magic World View D. Michael Quinn,1998-12-15 In this ground breaking book D Michael Quinn masterfully reconstructs an earlier age finding ample evidence for folk magic in nineteenth century New England as he does in Mormon founder Joseph Smith s upbringing Quinn discovers that Smith s world was inhabited by supernatural creatures whose existence could be both symbolic and real He explains that the Smith family s treasure digging was not unusual for the times and is vital to understanding how early Mormons interpreted developments in their history in ways that differ from modern perceptions Quinn s impressive research provides a much needed background for the environment that produced Mormonism This thoroughly researched examination into occult traditions surrounding Smith his family and other founding Mormons cannot be understated Among the practices no longer a part of Mormonism are the use of divining rods for revelation astrology to determine the best times to conceive children and plant crops the study of skull contours to understand personality traits magic formula utilized to discover lost property and the wearing of protective talismans Ninety four photographs and illustrations accompany the text    **The Complete Book of Incense, Oils & Brews** Scott Cunningham,1989 The book explains how to make your own incenses oils ointments inks tinctures herb baths bath salts brews ritual soaps and powders    *Magic, White and Black, Or, The Science of Finite and Infinite Life* Franz Hartmann,1888

book focuses on places and instances where Solomon's legendary biography intersects with those of Jesus Christ and of Aristotle. Solomon is the axis around which this trio revolves, the thread that binds it together. It is based on the premise that there exists a correspondence both overt and implied between these three biographies that has taken shape within a vast, multifaceted field of texts for more than two thousand years. *New Worlds Reflected* Dr Chloë Houston, 2013-06-28 Utopias have long interested scholars of the intellectual and literary history of the early modern period. From the time of Thomas More's *Utopia* 1516, fictional utopias were indebted to contemporary travel narratives with which they shared interests in physical and metaphorical journeys, processes of exploration and discovery, encounters with new peoples and exchange between cultures. Travel writers too turned to utopian discourses to describe the new worlds and societies they encountered. Both utopia and travel writing came to involve a process of reflection upon their authors' societies and cultures as well as representations of new and different worlds. As awareness of early modern encounters with new worlds moves beyond the Atlantic World to consider exploration and travel, piracy and cultural exchange throughout the globe, an assessment of the mutual indebtedness of these genres as well as an introduction to their development is needed. *New Worlds Reflected* provides a significant contribution both to the history of utopian literature and travel and to the wider cultural and intellectual history of the time, assembling original essays from scholars interested in representations of the globe and new and ideal worlds in the period from the sixteenth to eighteenth centuries and in the imaginative reciprocal responsiveness of utopian and travel writing. Together these essays underline the mutual indebtedness of travel and utopia in the early modern period and highlight the rich variety of ways in which writers made use of the prospect of new and ideal worlds. *New Worlds Reflected* showcases new work in the fields of early modern utopian and global studies and will appeal to all scholars interested in such questions. *Moon Magic: Lunar Myths, Goddesses, Horoscopes, and Herbs* Wyrd Books, 2024-08-28 In a magical collection of astrology, herbology, myths, and folktales, explore the history of Moon worship in this essential guide to lunar magic. *Luna*, every woman's friend Taylor Storyology 1900 *Moon Magic* answers all your questions about our closest celestial neighbour.
