premise of our experience rather than a future Challenging customary aesthetic assumptions that we write in order not to die  
Sandor Goodhart suggests with Kafka we write to die Drawing upon analyses developed by Girard Foucault Blanchot and  
Levinas along with examples from Homer to Beckett Möbian Nights proposes that all literature works autobiographically

publishers in developing the first science fiction magazine in New York in the 1930s and their later contributions to new and  
developing medial forms like comics and film Drawing on the historical context and the positions Jews held in the larger  
cultural environment the author illustrates how themes and tropes in science fiction and fantasy relate back to the realities of
