

# MENTAL MATHS QUIZ 5:4

|     |                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                     |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| 1)  | $60 \times 8$                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                     |
| 2)  | $1 - \underline{\hspace{1cm}} = 0.72$                                                                                                                                                                                                                                                                                                                                                                             |                                                                                     |
| 3)  | $\frac{3}{5}$ of 24                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                     |
| 4)  | $10 \times (7 + 6)$                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                     |
| 5)  | Find the value of $y$ if $y - 8 = 15$ .                                                                                                                                                                                                                                                                                                                                                                           |                                                                                     |
| 6)  | What is this part of the circle called?<br><i>diameter radius circumference sector</i>                                                                                                                                                                                                                                                                                                                            |  |
| 7)  | $4\frac{1}{4} + 3 + 5\frac{1}{2}$                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                     |
| 8)  | In a class, $\frac{2}{5}$ of the children like football. What fraction do not like football?                                                                                                                                                                                                                                                                                                                      |                                                                                     |
| 9)  | I am a triangle with 1 obtuse and 2 acute angles. Who am I?<br>A  B  C  D  |                                                                                     |
| 10) | What are the next two numbers: 1, 3, 6, 10, 15, 21, __, __                                                                                                                                                                                                                                                                                                                                                        |                                                                                     |
| 11) | What is the probability of rolling a 3 on a 6-sided dice?                                                                                                                                                                                                                                                                                                                                                         |                                                                                     |
| 12) | Entry to a zoo costs £30 for an adult and £25 for a child. How much would it cost for 2 adults and 3 children?                                                                                                                                                                                                                                                                                                    |                                                                                     |
| 13) | Five children play a computer game and score 12, 15, 7, 8 and 10 points. What is the median score?                                                                                                                                                                                                                                                                                                                |                                                                                     |
| 14) | A paperclip is made out of 9.8cm of wire.<br>How many paperclips could I make with 1 metre of wire?                                                                                                                                                                                                                                                                                                               |                                                                                     |
| 15) | I travel at 50 miles per hour for 4 hours. How far have I gone?                                                                                                                                                                                                                                                                                                                                                   |                                                                                     |
| 16) | A train journey takes 3h 40min. If I arrive at 1:30pm, what time did I set off?                                                                                                                                                                                                                                                                                                                                   |                                                                                     |

# Year 5 Maths Test Answers

## **Year 5 Maths Test Answers:**

**Year 5 Mental Maths Tests** Chris James, 2018-08-24 Hone mental maths skills with this range of tests designed by a practising Primary Mathematics Co ordinator The 30 tests are grouped into 10 blocks each containing 3 similar tests This allows for improved consolidation and improvement when compared with other test books that quickly jump from one mathematical concept to the next This is the UK version of the book which uses English spellings and s and pence in the questions *Excel Practice Selective Schools and Scholarship Tests* James A. Athanasou, 1997 Excel Test Skills Selective Schools and Scholarship Tests Years 5 6 is a comprehensive study guide for the selective schools and scholarship tests usually undertaken in Year 6 The book contains sections on all four types of tests Maths English General Ability and Written Expression so students can prepare for exams with a minimum of stress and maximum results In this book your child will find an introductory section on how best to prepare for selective schools and scholarship examinations hundreds of practice questions for Mathematics English General Ability and Written Expression answers to all multiple choice questions explanations that outline the thinking skills required for each question a complete trial test paper *Low Attainers in Primary Mathematics* Jenny Houssart, 2013-04-15 In this fascinating book Jenny Houssart draws on close observations with children in lower mathematics sets in primary schools to investigate why some children opt out of mathematics at an early age After introducing us to the children she addresses a particular type of mathematical task in each chapter including mental work practical work written work calculators and computers assessment tasks Through the use of stories and quotes the author shows how the children respond to specific tasks and presents evidence of a range of difficulties that emerge as the children are working Each chapter ends with discussions and implications for classroom practice Low Attainers in Primary Mathematics will be a useful resource for primary teachers student teachers SENCOs and teaching assistants who will all recognise these children from their own classrooms and draw insights from this highly readable book **Excel Selective Schools and Scholarship Tests** John Moir, 2013 The aim of Excel Test Skills Selective Schools Scholarship Tests Skills Strategies Years 5 6 is to identify develop and practise the skills useful in test situations in particular the Selective Schools and Scholarship Tests Recognition of these skills and strategies and confidence in applying them will lead to better test results In this book students will find an introduction with advice to parents and students an explanation page for each skill with sample questions and strategies a page of practice test questions for each different type of skill a detailed Written Expression section on how best to compose essays in tests answers to all multiple choice questions explanations that outline the thinking skills required for each question **Excel Selective Schools and Scholarship Mathematics Tests** Alan Horsfield, 1997 Excel Test Skills Selective Schools and Scholarship Mathematics Tests Year 5 6 is a comprehensive study guide for the selective school and scholarship tests usually undertaken in Year 6 The book contains hundreds of multiple choice questions based on the three major strands of maths numeration measurement and space so students can prepare for

exams with a minimum of stress and maximum results. This book is intended to give you the opportunity of doing a variety of questions based on the three major strands of Mathematics: Numeration, Measurement and Space. The more familiar you are with the material, the more confident you will feel and the better you will do in your tests. In this book, your child will find an introductory section on how best to approach selective school and scholarship test examinations, hundreds of practice multiple choice questions, answers to every question, explanations that outline the thinking skills required for each question, nine complete practice tests.

*Year 6 Selective Schools and Scholarship Tests* Kristine Brown, Alan Horsfield, Allyn Jones, 2006. Excel Revise in a Month Year 6 Selective Schools Scholarship Tests. Includes an introduction to the NSW Selective High Schools Test, the Cooperative Scholarship Testing Program (CSTP), the Scholarship Selection Test (SST), the Australian Cooperative Entry Program (ACEP) and the EAA Placement Test. Covers the essential areas of these tests: reading comprehension, general ability, maths and written expression. Includes fully explained answers to all questions. Excel Revise in a Month Year 6 Selective Schools Scholarship Tests will help your child revise for success with the following features: key points, provides a detailed summary of each topic as well as helpful hints and tips, sample supplies, model questions and responses to all question types, practice tasks, develops the necessary skills to answer questions correctly, real test allows your child to practise questions like those in the real test, sample test papers, allows your child to become familiar with the format of the Selective Schools and Scholarship Tests, suggested time helps prepare your child to answer questions under the time constraints of the Selective Schools and Scholarship Tests.

Mathematical Subjects Fiona Walls, 2009-08-10. Teaching and learning mathematics is a political act in which children, teachers, parents and policy makers are made visible as subjects. As they learn about mathematics, children are also learning about themselves: who they are, who they might become. We can choose to listen or not to what children have to say about learning mathematics. Such choices constitute us in relations of power. Mathematical know-how is widely regarded as essential, not only to the life chances of individuals but also to the health of communities and the economic well-being of nations. With the globalisation of education in an increasingly market-oriented world, mathematics has received intensified attention in the first decade of the twenty-first century, with a shifting emphasis on utilitarian aspects of mathematics. This is reflected in the reconceptualisation of mathematical competence as mathematical literacy, loosely conceived as those ways of thinking, reasoning and working mathematically that allow us to engage effectively in everyday situations in many occupations and the cut and thrust of world economies as active, empowered and participatory citizens. It is no surprise then that mathematics has become one of the most politically charged subjects in primary school curricula worldwide. We are experiencing an unprecedented proliferation of regional and national strategies to establish benchmarks, raise standards, enhance achievement, close gaps and leave no child behind in mathematics education. Industries have sprung up around the design, administration and monitoring of standardised assessment to measure and compare children's mathematical achievement against identified benchmarks and each other.
