Reflections on the Gulag Elena Dundovich, Francesca Gori, Emanuela Guercetti, 2003 **Complications** Claude

Lefort, 2007 Complications Communism and the Dilemmas of Democracy together the central concerns of the work of Claude Lefort over the past half century A pivotal figure in French thought Lefort studied under Maurice Merleau Ponty cofounded with Cornelius Castoriadis the influential journal Socialisme ou Barbarie and famously engaged in a heated debate with Jean Paul Sartre over the Soviet Union and Communist parties in the West He has influenced generations of political thinkers and throughout his career has offered invaluable leftist non communist critiques of both liberalism and Communism It is the prevailing belief that the death of communism was a victory for liberal democracy In Complications however Lefort challenges this interpretation and provides new ways of understanding the rise and fall of the Soviet Union and the Communist phenomenon Lefort engages the work of prominent historians Martin Malia and Francois Furet and shows how their emphasis on illusion and ideology led to their failure to understand the logic and workings of the Communist Party and its impact on Soviet society and the reasons why so many in the West had Communist sympathies He also maintains that those who regard the end of Communism as the triumph of markets and freedom restrict the scope of democratic thought and the possibility of greater social equality Lefort contends that Communism must be seen as part of a larger history of modernity and believes that the diagnosis of its death is dangerous to the future of democracy In the tradition of Hannah Arendt and Raymond Aron Lefort complicates the pieties of historical understanding and offers a new approach to thinking about totalitarianism and a more vital democracy **From Revolution to Ethics, Second Edition** Julian Bourg, 2017-11-28 Winner CHOICE Outstanding Academic Book Award CHOICE Magazine 2008 Winner Morris D Forkosch Prize for the best book in intellectual history Journal of the History of Ideas 2008 The French revolts of May 1968 the largest general strike in twentieth century Europe were among the most famous and colourful episodes of the twentieth century Julian Bourg argues that during the subsequent decade the revolts led to a remarkable paradigm shift in French thought the concern for revolution in the 1960s was transformed into a fascination with ethics Challenging the prevalent view that the 1960s did not have any lasting effect From Revolution to Ethics shows how intellectuals and activists turned to ethics as the touchstone for understanding interpersonal institutional and political dilemmas In absorbing and scrupulously researched detail Bourg explores the developing ethical fascination as it emerged among student Maoists courting terrorism anti psychiatric celebrations of madness feminists mobilizing against rape and pundits and philosophers championing humanitarianism From Revolution to Ethics provides a compelling picture of how May 1968 helped make ethics a compass for navigating contemporary global concerns In a new preface for the second edition published to mark the fiftieth anniversary of the events Bourg assesses the worldwide influence of the ethical turn from human rights to the return of religion and the new populism

The End of History Barry Cooper, 1984 History ended according to Hegel according to Kojève with the establishment and proliferation in Europe of states organized along Napoleonic lines rational bureaucratic homogenous atheist This state lives in some tension with the popular slogan that helped give it birth Liberty Equality Fraternity But there is now also totalitarianism the only new kind of regime according to Arendt created since the national state Man is now in charge of nature technology and society much of political life has become a gavotte elaborating the meaning of the Napoleonic model This interpretation however opposed to common sense has been influential

particularly in France where the course of existentialism is unintelligible without taking it into account Professor Cooper argues that it is inherently plausible and examines the arguments of Hegel and Kojve to reveal its consistency and explanatory power And he applies it to more contemporary events the experience of the atomic bomb the Gulag system of extermination and the growth of multinational corporations The work concludes by pulling together the presuppositions and theories of the totalitarian system the Hegelian version of the Napoleonic state and our contemporary technological society Overall the reader will find here a complete and challenging presentation of how the modern world understands its collective life
