

The following tips can help you to avoid common mistakes that students make with entering answers into answer boxes.

Equations

Do not enter " $x =$ " or " $y =$ " in the answer box if that part of the equation is already given before the answer box.

Correct: $x = \boxed{\frac{1}{2}}$

Incorrect: $x = \boxed{x = \frac{1}{2}}$

Click the Continue button to advance to the next step.

Rounding

Answers should only be rounded when the problem specifically asks for a rounded answer. Pay close attention to the rounding instructions given in the problem. Unless otherwise instructed, always use the most precise numbers possible when calculating your answer, and then round only the final answer to the specified number of decimal places.

Multiple answers

When problems expect multiple answers in a single answer box, the answers must be separated by commas. If you are using templates from the math palette in one of those answers, be sure to type the comma outside of the template.

Choose the answer below that has the commas entered in the correct positions.

☐ A. $\boxed{\sqrt{3}, \frac{1}{2}, 33, 4}$

☐ B. $\boxed{\sqrt{3}, \frac{1}{2}, 33, 4}$

☐ C. $\boxed{\sqrt{3}, \frac{1}{2}, 33, 4}$

☐ D. $\boxed{\sqrt{3}, \frac{1}{2}, 33, 4}$
