*Flip the Funnel* Joseph Jaffe,2010-01-26 Why customer retention is the new

acquisition If there s anything the recession of 2009 taught us it was the importance of investing in our customers but when was this any different So says Joseph Jaffe bestselling author of Life After the 30 Second Spot and Join the Conversation and a leading expert and thought leader on new media and social media In most businesses it costs roughly five to ten times more to acquire a new customer than it does to retain an existing one and yet companies continue to disproportionately spend

their budgets into the wrong end of the funnel the mass media or awareness side What we haven t paid enough attention to is the right end of the funnel the word of mouth component that essentially acts as a multiplier for future business The economic impact of an active engaged and loyal customer is tremendous And the same is true of the opposite scenario namely the impact of angry customers and negative word of mouth or referrals It is this thinking that Jaffe has channeled to challenge marketers to flip the funnel once and for all With a renewed focus and energy on customer experience it is possible

to grow your sales while decreasing your budget in other words getting more from less Engaging a few customers to spread the word to many Using this new flipped funnel model together with a set of new rules of customer service and a revolutionary customer referral and activation process you ll learn how to transform your existing customers into your best salespeople In addition Jaffe will explain how to best introduce and combine both digital and social media tools to boost your loyalty arsenal deploy influencer marketing and implement word of mouth strategies that inspire your loyal opinionated and most vocal customers to become credible persuasive and influential endorsers of your products and services Explains how to cut your marketing budget AND grow sales Illustrates practical ways to use existing customers to reach out to new prospects Outlines the authentic role of social media Demonstrates key ideas with rich real life examples including Comcast Apple The Obama Campaign Dell Panasonic American Airlines Delta Airlines Johnson renowned blogger and podcaster at Jaffe Juice [www.jaffejuice.com](http://www.jaffejuice.com) and host presenter of web video show JaffeJuiceTV [www.jaffejuice.tv](http://www.jaffejuice.tv) Visit [www.flipthefunnelnow.com](http://www.flipthefunnelnow.com) to join the conversation *Professional IOS Network Programming* Jack Cox,Nathan Jones,John Szumski,2012-10-23 Learn to develop iPhone and iPad applications for networked enterprise environments The iPhone and iPad have made a powerful impact on the business world Developers creating iOS apps for the enterprise face unique challenges involving networking system integration security and device management This Wrox guide provides everything you need to know to write iOS apps that integrate with enterprise network resources providing options for networking iOS devices to enterprise systems and to each other Offers a complete compendium of methods and techniques for networked communication between iOS applications and other platforms and devices Includes instruction on incorporating synchronous and asynchronous HTTP requests security communication issues and more Covers payload handling network security GameKit and Bonjour communications and low level network communications Professional iOS Network Programming focuses on the networking aspects of iOS and its relationship to remote data sources offering a truly unique approach *The Seven P's of the Apple Watch's Marketing-Mix* Santiago Mas,2018-08-22 Research Paper undergraduate from the year 2016 in the subject Business economics Offline Marketing and Online Marketing grade 1 3 University of Applied Sciences Essen course Master of Business Administration MBA language English abstract After setting marketing objectives and marketing strategies the Marketing Mix represents the third and last level of planning in the marketing conception Therefore once the market for the Apple Watch has already been defined and correspondingly analyzed the next step will be to review what the different elements of the Apple Watch Marketing Mix are and how they interact with each other The interaction among them shows clearly how changes and decisions made which affect to one specific area of a product s Marketing Mix produce different changes and up to what extent in the rest of the elements2 demonstrating that they cannot be seen considered or analyzed separately but as a whole It is clear then that only by approaching the Apple Watch Marketing Mix as a whole in which each part is irreplaceable and subordinated to Apple s marketing strategy can be obtained a complete view of the level of
