Azure Policy ✓✓ Azure Policy is an Azure service you use to create, assign and, manage policies. These policies enforce different rules and effects over your resources so that those resources stay compliant with your corporate standards and service level agreements. Azure Policy meets this need by evaluating your resources for noncompliance with assigned policies. For example, you might have a policy that allows virtual machines of only a certain size in your environment. After this policy is implemented, new and existing resources are evaluated for compliance. With the right type of policy, existing resources can be brought into compliance.

What is a policy definition? ✓✓ A policy definition expresses what to evaluate and what action to take. For example, you could ensure all public websites are secured with HTTPS, prevent a particular storage type from being created, or force a specific version of SQL Server to be used.

Removing a policy definition ✓✓ `Remove-AzPolicyAssignment -Name 'audit-vm-manageddisks' -Scope`

Defining initiatives ✓✓ Initiative definitions simplify the process of managing and assigning policy definitions by grouping a set of policies into a single item. For example, you could create
