Passage 1: The Woman who Saved the Everglades

1 One hundred years ago, people viewed the Everglades as a worthless swamp. Even the governor, Napoleon Broward, wanted to drain the area to build houses and farms. Sugarcane growers regularly polluted the waters of Lake Okeechobee. The Army Corps of Engineers constructed 1,400 miles of canals to move water from the wetlands. These actions almost destroyed the unique habitat now known as the Everglades.

2 In 1947, one woman managed to change how people viewed the Everglades: Marjory Stoneman Douglas.

Early Life

3 Born on April 7th, 1890 in Minnesota, Marjory Stoneman loved reading as a child. Her parents separated when she was 6 years old. She and her mother went live with family in Massachusetts. Her mother's relatives often spoke disrespectfully about her father, which upset the young girl. She escaped her unhappiness by reading. Eventually she also began to write her own stories.

4 At eighteen, Marjory left home to attend Wellesley College. There she joined a suffrage group, and she spoke in support of women's right to vote. Due to her excellent speaking skills, her classmates named her class orator. Four years later, she graduated with a degree in English. A few months after she graduated, her beloved mother died of breast cancer.

Writing Career

5 A few years later, Marjory married Kenneth Douglas. Sadly, the marriage did not last long. She left New England to reunite with her father, Frank Stoneman, in South Florida.

6 Mr. Stoneman was the publisher of the newspaper now known as the Miami Herald. He hired his daughter to write about the local society. At the time, Miami was a small town of 5,000 people, and she did not have much news to report. Marjory left the paper during World War I to join the American Red Cross, but she returned after the war. Eventually she wrote a daily column and gained loyal readers. In her column, she wrote about women's suffrage, civil rights, and conservation of the environment.

7 In 1923, Marjory left the paper to become an independent writer. She was very successful and published a variety of fiction stories and nonfiction books.

Champion of the Everglades

8 In the early 1940s, Douglas spent five years researching the Everglades. After speaking with a biologist, Marjory understood that the Everglades were a water system. The Kissimmee River flows into Lake Okeechobee. The lake's waters then spill into the wetlands of the
