Digital journalism takes many forms we therefore need to revise, improve, adjust and even invent methods to understand emerging forms of journalism. In this book scholars at the forefront of methodological innovations in digital journalism research share their insights on how to collect, process and analyse the diverse expressions of digital journalism including online news search results, hyperlinks and social media posts. As such this book not only constitutes a benchmark for thinking about research methods in digital journalism it also provides an entry point for graduate students and seasoned scholars aiming to do research on digital journalism.
