Illinois Standards Achievement Test Sample Mathematics Materials ,2001 *Illinois Standards Achievement Test Sample Reading Materials* ,1999 **Fighting the White Knight** Jocelyn Turner,2023-01-12 In her final year of teaching Jocelyn Turner spent over one fifth of each week administering mandatory tests and quizzes She spent the remaining time preparing students to take those specific exams regardless of the background knowledge and preparedness of individual students While she was testing she could not teach Teachers were expected to present the same Common Core based grade specific material to all their students at the same time whether Jake was reading at a first grade level or Taylor at a ninth grade level It was a rare and lucky child who fit the profile of the year s onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read We have been told that US education is in crisis Ms Turner agrees In *Fighting the White Knight* she argues that government mandates created and are now perpetuating this crisis depriving children of remedial learning instruction time and personal attention *Fighting the White Knight* also looks at the 1 6 trillion student debt crisis a consequence of today s single minded college bound pipeline vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical and gifted education Ms Turner concludes by advocating for changes she believes can rescue American education guiding children back to the safe inspirational learning experiences of a more student focused time Professional Learning Communities Patrick Baccellieri,2009-07-15 This brand new resource uses data in decision making to improve student learning by promoting a school wide learning community It is written to help motivate staff to participate in choosing goals and instructional strategies while keeping the focus on improving student achievement *The Leverage of National Board Candidacy* Jana Hunzicker,2006-12 The *Leverage of National Board Candidacy* is written for teachers considering the pursuit of National Board certification as well as for those currently engaged in the certification process Capturing the experiences of Anne Barbara and Jamie three teachers who sought NBPTS certification during the 2004 2005 school year the book vividly describes their teaching practices guiding philosophies and thought processes before exploring each teacher s learning as it occurred during the certification year Comparing the three teachers certification experiences to the findings of recently conducted research the book explores characteristics of readiness for National Board candidacy common learning outcomes of the NBPTS certification process and possible explanations for the varying nature and degree of learning that occurred for the three teachers through the experience The final chapter presents the theory of leverage during National Board candidacy an interactive dynamic that creates an uncomfortable yet positive pressure that makes the pursuit of National Board certification one of the most powerful professional development experiences currently available to teachers **An**

Educational Psychology Textbook Equity, 2014-10-10 The first half of the book focuses on broader questions and principles taken from psychology per se and the second half focuses on somewhat more practical issues of teaching All parts of the book draw on research theory and practical wisdom wherever appropriate Chapter 2 is about learning theory and Chapter 3 is about development Chapter 4 is about several forms of student diversity and Chapter 5 is about students with disabilities Chapter 6 is about motivation Following these somewhat more basic psychological chapters we turn to several lasting challenges of classroom life challenges that seem to be an intrinsic part of the job Chapter 7 offers ideas about classroom management Chapter 8 ideas about communicating with students Chapter 9 about ways to assist students complex forms of thinking and Chapter 10 about planning instruction systematically The book closes with two chapters about assessment of learning
