Advanced Trauma Life Support Program for Physicians: Student manual Raymond H. Alexander, Herbert J. Proctor, 1993-01-01 **Legal Aspects of Medicine** James R. Vevaina, Roger C. Bone, Edwin Kassoff, 2012-12-06 The simple reason for creating this book was my impression that the law is having an increasing impact on the practice of medicine There is hardly a physician I know who has not been deeply troubled by legal problems professionally economically and most important of all psychologically The past decade has seen medical practice premiums steadily rising Multimillion dollar verdicts have not been unusual Having disregarded these vital issues for many years physicians have suddenly become very aware of litigation related problems Having been interested for a long time in the logic of the law and the romance of legal research I thought it would be useful to create a book that would result in the blending of great minds in law and medicine It has been my long standing observation and belief that the approach of professors of medicine and that of learned members of the bar and bench when put together produce unique results Putting these views together has been the real challenge in editing this book **Pediatric Sports Medicine for Primary Care** Richard B. Birrer, Bernard Griesemer, Mary B.

Cataletto, 2002 This book combines the needs of pediatric adolescent and young adult athletes with practical clinically useful information needed by primary care practitioners to guide and treat this athletic population Chapters follow a standard format completely supported by easy to use illustrations and tables Comprehensive and detailed its focus is on the content necessary to pass the CAQ in Sports Medicine offered by the American Board of Pediatrics ABP and the American Board of Family Practitioners ABFP A Brandon Hill recommended title
