Whatmore, 2012-07-31 As Britain and France became more powerful during the eighteenth century small states such as Geneva could no longer stand militarily against these commercial monarchies Furthermore many Genevans felt that they were being drawn into a corrupt commercial world dominated by amoral aristocrats dedicated to the unprincipled pursuit of wealth In this book Richard Whatmore presents an intellectual history of republicans who strove to ensure Geneva s survival as an independent state Whatmore shows how the Genevan republicans grappled with the ideas of Rousseau Voltaire Bentham and others in seeking to make modern Europe safe for small states by vanquishing the threats presented by war and by empire **Revolutions without Borders** Janet Polasky, 2015-03-01 Nation based histories cannot do justice to the

rowdy radical interchange of ideas around the Atlantic world during the tumultuous years from 1776 to 1804 National borders were powerless to restrict the flow of enticing new visions of human rights and universal freedom This expansive history explores how the revolutionary ideas that spurred the American and French revolutions reverberated far and wide connecting European North American African and Caribbean peoples more closely than ever before Historian Janet Polasky focuses on the eighteenth century travelers who spread new notions of liberty and equality It was an age of itinerant revolutionaries she shows who ignored borders and found allies with whom to imagine a borderless world As paths crossed ideas entangled The author investigates these ideas and how they were disseminated long before the days of instant communications and social media or even an international postal system Polasky analyzes the paper records books broadsides journals newspapers novels letters and more to follow the far reaching trails of revolutionary zeal What emerges clearly from rich historic records is that the dream of liberty among America s founders was part of a much larger picture It was a dream embraced throughout the far flung regions of the Atlantic world **The Bentham Brothers and Russia**

Roger Bartlett, 2022-09-29 The jurist and philosopher Jeremy Bentham and his lesser known brother Samuel equally talented but as a naval architect engineer and inventor had a long love affair with Russia Jeremy hoped to assist Empress Catherine II

with her legislative projects Samuel went to St Petersburg to seek his fortune in 1780 and came back with the rank of Brigadier General and the idea famously publicised by Jeremy of the Inspection House or Panopticon The Bentham Brothers and Russia chronicles the brothers later involvement with the Russian Empire when Jeremy focused his legislative hopes on Catherine's grandson Emperor Alexander I ruled 1801-25 and Samuel found a unique opportunity in 1806 to build a Panopticon in St Petersburg the only panoptical building ever built by the Benthams themselves Setting the Benthams projects within an in depth portrayal of the Russian context Roger Bartlett illuminates an important facet of their later careers and offers insight into their world view and way of thought He also contributes towards the history of legal codification in Russia which reached a significant peak in 1830 and towards the demythologising of the Panopticon made notorious by Michel Foucault the St Petersburg building still relatively unknown is described here in detail on the basis of archival sources The Benthams interactions with Russia under Alexander I constituted a remarkable episode in Anglo Russian relations this book fills a significant gap in their history Current Legal Problems 1998 M. D. A. Freeman, 2000 This book is the fifty first volume of Current Legal Problems and contains the now customary selection of high quality essays by a group of outstanding scholars This volume gathers together a particularly valuable and broad ranging set of contributions which makes for a stimulating study of legal theory at the end of the millennium *Symposium*, 2003 *Proceedings of the Huguenot Society of Great Britain and Ireland* Huguenot Society of Great Britain and Ireland, 1998 **The Wiltshire Archaeological and Natural History Magazine**, 2000 Evangelicalism, Penal Theory and the Politics of Criminal Law R. Follett, 2000-11-30 Following the abolition of the British slave trade in 1807 a group of politicians began to agitate for reform of England's bloody code of criminal statutes This examines the politics and propaganda of criminal law reform from 1808 to the Whig succession to power in 1830 The Transmission of Culture in Western Europe, 1750-1850 David M. Bickerton, Judith K. Proud, 1999 In the late eighteenth and early nineteenth centuries Geneva was a major crossroads for European cultural exchanges Its complex linguistic environment growing anglophilia renowned philosophical and religious heritage and increasing stature in the new sciences made this small city into a market place for ideas and information as well as for watches and wheat The foundation in 1796 of a Biblioth que britannique which would itself become a formidable encyclopedia of scientific literary and agronomic knowledge characterises Geneva's role as cultural agent This was celebrated in September 1996 at Dartington in England when an international group of scholars met to examine the Biblioth que britannique's historical role its dissemination of the works of Jeremy Bentham and Jane Austen and to place its achievements within a broader context The papers selected for publication examine not only the Biblioth que britannique but also the role of contemporary moralising and didactic literature women's reading and their writings the interplay of influences in the world of science the eighteenth century world of journalism and journalists and the all pervasive impact of Jean Jacques Rousseau Geneva's polymathic son upon thought botany music and his own posterity *Bentham: Legal*
