## WHO GOES THERE?

by JOHN W. CAMPBELL, JR.

TO THE READERS OF SCIENCE-FICTION, that fascinating type of literature dealing with that which can happen, but has not happened yet, the name of JOHN W. CAMPBELL is as important as is Newton's name in physics, or Shelley's name in poetry. For Mr. CAMPBELL is that rare combination, editor and author. As editor he has guided ASTOUNDING SCIENCE-FICTION to its present pre-eminence, and by his standards he has set the entire pattern of modern science-fiction; as an author, writing under his own name and as "Don A. Stuart", his famous pen name, he has put to paper some of the finest and most thrilling adventure yarns of other times and places ever written. The seven novelettes comprising this volume represent Don A. Stuart at his best.

These are stories that will be avidly read—again and again. The pages of this book will transport the reader into fabulous realms of the imagination that he will long remember. For here are such unforgettable tales as *Elimination*, wherein a machine that foretells the future is invented—to the inevitable tragedy that befalls its inventors; *Blindness*, a tale of a modern Prometheus, attempting to snatch away atomic energy from the Sun itself, returning to Earth to find that his efforts were in vain; *Twilight* and the sequel *Night*—those heroic sagas of men, who thrown forward distant eons of time, find a world that has expended its energy, its activity—its very life. And here, also, is a title story that tells of an alien monstrosity from another planet, with the terrifying ability to assume any living form, and an Antarctic expedition faced with the terrible dilemma of determining who is yet man—or monster!

WHO GOES THERE? is a book for the reader who wishes to escape a too-concrete world and a too-limited, matter-bound sphere wherein man must remain shackled in discontent; for such a reader these fascinating stories will be a release to an adventure in imagination.
