**The Emergency Medicine Trauma Handbook** Alex Koyfman, Brit Long, 2019-10-17 Trauma is a leading cause of death and disability around the world and the leading cause of death in those aged under forty five years. Conditions such as airway obstruction, hemorrhage, pneumothorax, tamponade, bowel rupture, vascular injury, and pelvic fracture can cause death if not appropriately diagnosed and managed. This essential book provides emergency physicians with an easy to use reference and source for traumatic injury evaluation and management in the emergency department. It covers approaches to common life threatening and traumatic diseases in the emergency department for use on shift and as a reference for further learning. Each chapter includes a succinct overview of common traumatic injuries with evaluation and management pearls and pitfalls. Highly illustrated with images from one of the busiest trauma centers in the US and featuring expert contributions from a diverse set of attending physicians, this is an essential text for all emergency medicine practitioners.
