Preventing Disease Richard B. Goldbloom, Robert S. Lawrence, 2012-12-06 Preventing Disease the offspring of an extraordinary collaboration between the U S and Canadian Preventive Services Task Forces presents a meticulous and objective review of the published evidence on preventive measures Examining such diverse and relevant topics as screening for endometrial cancer exercise counselling for healthy adults and the evidence for a causal relation between dietary lipids and coronary heart disease this volume reflects the editors shared conviction that recommendations for preventive action should rarely exceed what is well justified by the evidence In the current period characterized as the Second Public Health Revolution the authors hard nosed approach leads them to ask the tough questions Are preventive measures cost saving Does preventive screening actually lead to treatment in clinical practice Does the treatment do more good than harm To what extent does our desire to eliminate causes of serious disability ill health and premature death cloud our objectivity All concerned about preventive medicine community health and primary care will find valuable stimulation for thought and action in this book the contributions have gone beyond the rhetoric

Air Force Journal of Logistics ,2004 *Stages and Transition in Conceptual Development* John Gilbert Wallace, 1972 **Index to Sixteen (i.e., 16) mm Educational Films** National Information Center for Educational Media, 1975 Semantic and Conceptual Development Frank C. Keil, 1979 In Semantic and Conceptual Development Frank Keil presents the first psychological investigation of the developing child s ontological knowledge Building on previous philosophical work Keil shows that ontological categories develop in a highly predictable progression Moreover Keil demonstrates that ontological development obeys a strong formal constraint on the relations among categories Although there are many possible ontological systems children appear to be inherently targeted to consider a system of only one sort

Keil's results represent exactly the sort of interdisciplinary study of the human mind which is gradually emerging as the new field of cognitive science. We are proud to publish his work as the first book in the Cognitive Science Series which is designed to foster major empirical and theoretical contributions to this new field.
