Learner-Centered Teaching Activities for Environmental and Sustainability Studies Loren B. Byrne, 2016-03-21 Learner centered teaching is a pedagogical approach that emphasizes the roles of students as participants in and drivers of their own learning Learner centered teaching activities go beyond traditional lecturing by helping students construct their own understanding of information develop skills via hands on engagement and encourage personal reflection through metacognitive tasks In addition learner centered classroom approaches may challenge students preconceived notions and expand their thinking by confronting them with thought provoking statements tasks or scenarios that cause them to pay closer attention and cognitively see a topic from new perspectives Many types of pedagogy fall under the umbrella of learner centered teaching including laboratory work group discussions service and project based learning and student led research among others Unfortunately it is often not possible to use some of these valuable methods in all course situations given constraints of money space instructor expertise class meeting and instructor preparation time and the availability of prepared lesson plans and material Thus a major challenge for many instructors is how to integrate learner centered activities widely into their courses The broad goal of this volume is to help advance environmental education practices that help increase students environmental literacy Having a diverse collection of learner centered teaching activities is especially useful for helping students develop their environmental literacy because such approaches can help them connect more personally with the material thus increasing the chances for altering the affective and behavioral dimensions of their environmental literacy This volume differentiates itself from others by providing a unique and diverse collection of classroom activities that can help students develop their knowledge skills and personal views about many contemporary environmental and sustainability issues      *Backpacker's Guide to University* Jo Phillips, Martin Griffin, 2025-08-28 Over the years the university experience has changed for young people higher education study is expensive graduate employment isn't guaranteed in an age of fast evolving technology and the stakes feel high In *The Backpacker's Guide to University* Dr Jo Phillips and Martin Griffin draw on their collective 45 years experience teaching undergraduates and sixth formers to bring students the ultimate guide to making the most of their time in further education Written in a warm and approachable style they offer clear and practical guidance supported by key research in the field Together Jo and Martin demystify the language of university and offer the very best advice on adjusting to university study campus life and independent learning They share clear and easy tasks structured so that students can work through them sequentially from pre arrival to the end of the first

year and beyond This book urges students to embrace the backpacker approach a transformative mindset that will empower them to immerse themselves in the spirit of adventure and seize every opportunity that university life has to offer Essential reading for students applying to university current undergraduates in the early stages of their course their parents and teachers
