without God: A Multicultural Spectrum of Atheism Sanjit Chakraborty, Anway Mukhopadhyay, 2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism. What does atheism mean in different cultural contexts? Can this term be applied appropriately to different religious discourses which conceptualize God, gods, Goddess, goddesses, and also godlessness in hugely divergent ways? Is my God the same as yours? If not, then how can your atheism be the same as mine? In other words, this volume raises the question: Is it not high time that we proposed a comparative study of atheism alongside that of religions rather than believing that atheism is centered in the Western experience? Apart from answering these questions, the book highlights the much-needed focus on the philosophical negotiations between atheism, theism, and agnosticism. The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical, theological, literary, and scientific corollaries.
