Allen (2020) explored whether there was truly life on Earth. In her study, she found that the existence of alien lifeforms is probable (p.33). Another study from Educational University included similar data for these findings (Zinc & Doyle, 2019, p. 431). Even though both studies have shown the existence of aliens, it is still something disputed.

Conducting Research Güл Seçkin, Lawrence T. Orcher, 2025-02-24 *Conducting Research* prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. The emphasis is on providing practical, easy to follow advice on how to conduct a first research project. This book walks students through each step of the research process from selecting a research topic and participants to analysing data and presenting research findings. Notably, the third edition places a heightened emphasis on digital social science research methods, encompassing both quantitative and qualitative methodological approaches. The primary focus is on providing practical and easily comprehensible guidance for successfully executing an empirical project for a research methods and design course. The updated real research examples serve to exemplify the application of research principles in an empirical social science research context, further enhancing the students' preparedness for their research project. Furthermore, the inclusion of enhanced online resources for both students and instructors renders this an ideal text for social sciences courses in multiple disciplines such as sociology, psychology, education, and healthcare. With online resources for students and instructors, this is the ideal text across the social sciences such as sociology, psychology, healthcare, and education. New to this edition: A new chapter on digital social science methods incorporating both quantitative and qualitative research methodologies; A new chapter on research ethics to support the foundations of research knowledge; All new support materials available online for instructors and students.

Conducting Research Lawrence T. Orcher, 2016-10-14 *Prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. Common features as well as differences between the two research approaches are explored. While theoretical material is included, the emphasis is on providing practical, easy to follow advice on how to conduct a first research project. Unlike most texts with hypothetical examples, this text with real examples written by a variety of published researchers makes research methods come alive. Students see how research methods are used to explore important contemporary problems. Factual Questions at the end of each chapter help students review key concepts covered in the chapters. Questions for Discussion encourage students to consider specific techniques and strategies that they might use while conducting their research.* ***The Scholars' Publication Sourcebook*** Seth Agbo, 2024-12-31 *This book is a comprehensive guide for instructors and graduate students on preparing scholarly manuscripts for peer-reviewed journals, theses, or dissertations in the humanities and social sciences.
