Finkbeiner, 2006-10-27 The Guide to Living with HIV Infection is the most complete source of medical, emotional, social, and practical advice available for those infected with HIV and their loved ones. Developed at the Johns Hopkins AIDS Clinic, the guide provides essential information for making decisions about treatment and testing in a world transformed by new research and pharmacotherapy. In this thoroughly updated sixth edition, Dr. John Bartlett and Ann K. Finkbeiner address the latest information about risks of transmission, viral mutations that confer drug resistance, and new rapid HIV testing. They offer guidelines for Highly Active Antiretroviral Therapy (HAART), a therapy protocol that has dramatically increased life expectancy for HIV-positive people. They describe how to follow HAART and when to change drug regimens, the symptoms of and treatments for HAART side effects, and the costs of and insurance coverage for HAART. They also outline the possibilities for a diagnosis of no detectable virus.
