ideological economic and technological influences that have shaped the profession's development Illustrated with over one hundred photographs of architectural models from previously undocumented archives this book will be of great interest to architectural modelmakers academics and historians as well as anyone with an interest in architectural history and modelmaking *Architecture and Modelbuilding* Alexander Schilling, 2018-09-10 Architectural models are used at various stages of a project As working models they support the design process they are made up from time to time using simple materials such as cardboard without any attempt at accuracy and continue to be adjusted and added to as the ideas and the design progress The point here is to swiftly check a design idea to allow it to be continued or dismissed Presentational models are more involved at this stage the design has been completed and the purpose of the model is to convey the ideas to the potential user in a clear and easy to understand way The book *Architecture and Model Building* includes outstanding examples explaining the possibilities of this medium and at the same time provides comprehensive information on materials and techniques *Library of Congress Subject Headings* Library of Congress.
