## **Business Studies September 2014 Memorandum:**

Conflict & Prosperity Menachem Blondheim, Andreas Stergio, Kivanç Ulusoy, 2017-08-07 The eastern part of the Mediterranean is witnessing some of the most intriguing and dangerous events in today's world. It features weak or collapsed states, direct and proxy wars, and a confluence of great power stakes. In recent years, a new and significant element has been added to the region's troubled search for equilibrium: the discovery of substantial treasures of offshore energy. These energy discoveries are widely recognized as a game changer. This volume investigates the extent of this change and the range of its implications. The Eastern Mediterranean has historically been a meeting point of east and west, of the economic north and south, and of three major world religions: Christianity, Islam, and Judaism. However, this volume proposes to view the Eastern Mediterranean as a separate new region and not as a mere extension of neighboring continents or even of the Middle East. This analytical frame stands at the center of the book.

Emerging Dynamics of Sustainability in Multinational Enterprises John R. McIntyre, Silvester Ivanaj, Vera Ivanaj, Rabi N. Kar, 2016-02-26 Economic development that meets the needs of the global population without jeopardizing the capacity of future generations is a worldwide challenge for multinational enterprises (MNEs). They are expected to balance their role as global economic actors and environmental stewards in the environment in which they operate. Contributors from India, Europe, and the United States offer new perspectives contrasting US, European, and emerging economies' approaches to sustainability and how they can generate roadmaps which yield innovative solutions for one of the most contentious issues of our era. Their review suggests that the differential performance across developed and emerging economies has exposed potential weaknesses. Emerging Dynamics of Sustainability in Multinational Enterprises promotes greater emphasis on experimenting with unique local and sustainable approaches to solving problems faced by firms in or from emerging economies. This is a critical resource for researchers, practitioners, and policy makers concerned with sustainable development issues and a fresh reference for graduate level students and academics focusing on corporate governance, sustainable development, and ethics as well as multinational enterprise management.

TERI Energy and Environment Data Diary and Yearbook (TEDDY) 2014/15 The Energy & Resources Institute (TERI), 2015-03-30 TERI Energy and Environment Data Diary and Yearbook TEDDY is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors: coal and lignite, petroleum and natural gas, power and renewable energy sources, energy demand sectors, agriculture, industry, transport, residential and commercial sectors, and environment local and global. It also provides a review of the government policies that have implications on energy and environment in India. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations.

working on energy and related sectors After the introductory chapters TEDDY has been divided into sections on energy supply energy demand and local and global environment The twenty ninth edition of the publication TEDDY 2014 15 comes with several interesting features The Green Focus at the end of each chapter highlights sustainable initiatives and successful practices The publication also features a section with a discussion around sustainable development goals and tracking framework for sustainable energy goals at global national and sub national levels Graphs maps and tables have been used in all chapters to explain facts which make the book an interesting read In addition detailed tables at the end of each chapter represent statistical data on energy and environment The publication is accompanied by a complimentary CD containing full text The publication is cited in international peer reviewed journals and policy documents
