

## Lifting System

### Use of a lifting hoist

When a lifting hoist is available, make sure the supporting arms are in contact with the lifting points shown in the figure.

#### Important!

Only lift the car from the special lifting points; the car underbody is composed of floor panels, which could be damaged if used to lift the car.

### Use of a jack

To lift the car in an emergency situation, place a jack in the reinforced socket on the chassis, as shown in the figure.

#### WARNING!

Positioning the jack in other points could damage the vehicle and injure the person carrying out the work.

Before jacking the car, select 1st gear and apply the parking brake. Ensure that the car is parked on level ground.
