Routledge Handbook of Urban Forestry Francesco Ferrini,Cecil C. Konijnendijk van den Bosch,Alessio Fini,2017-03-31

More than half the world s population now lives in cities Creating sustainable healthy and aesthetic urban environments is therefore a major policy goal and research agenda This

comprehensive handbook provides a global overview of the state of the art and science of urban forestry. It describes the multiple roles and benefits of urban green areas in general and the specific role of trees including for issues such as air quality, human well-being and stormwater management. It reviews the various stresses experienced by trees in cities and tolerance mechanisms as well as cultural techniques for either pre-conditioning or alleviating stress after planting. It sets out sound planning, design, species selection, establishment and management of urban trees. It shows that close interactions with the local urban communities who benefit from trees are key to success. By drawing upon international state-of-the-art knowledge on arboriculture and urban forestry, the book provides a definitive overview of the field and is an essential reference text for students, researchers and practitioners. Handbook of Urban and Community Forestry in the Northeast John E.

Kuser, 2013-11-11. With the emergence of urban and community forestry as the fastest growing part of our profession in the last 15 years, the need for a book such as this inevitably developed. The Society of American Foresters' urban forestry working group counts 32 or more universities now offering courses in this subject and the number is growing. For the last several years I have coordinated a continuing education urban forestry course at Rutgers for nonmatriculated students. Registrants have included arborists, shade tree commissioners, landscape architects, city foresters, environmental commissioners, park superintendents and others whose jobs involve care and management of trees. The course was started by Bob Tate in 1980 around a core of managerial subjects such as inventories, budgets and public relations. After Bob left in 1984 to join Asplundh and later to start his own prosperous business in California, the course languished after it exhausted the local market for those subjects. *Urban & Community Forestry* Craig William Johnson, 1990 **Arborist News**, 2001 **Tree Care Industry**, 2006 **Utility Arboriculture** Randall H.
