Chaucer's Boece and the Medieval Tradition of Boethius Alastair J. Minnis, 1993 Chaucer's translation of Boethius work is related to medieval intellectual culture with attention to Trevet's Boethius commentary This collection seeks to locate the Boece within the medieval tradition of the academic study and translation of the *Consolatio philosophiae* thereby relating the work to the intellectual culture which made it possible It begins with the fullest study yet undertaken of the Boethius commentary of Nicholas Trevet this being a major source of the Boece There follow editions and translations of the major passages in Trevet's commentary where Neoplatonic issues are confronted then Chaucer's debt to Trevet is assessed in a detailed review The many choices which faced Chaucer as a translator are indicated and the Boece is placed in a long line of interpreters of Boethius in which both Latin commentators and vernacular translators played their parts Finally a view is offered of the Boece as an example of late medieval academic translation if the Boece is assigned to this genre it may be judged a considerable success Emerging Networking in the Digital Transformation Age Mikhailo Klymash, Andriy
