Area Models For Simple Probability Geometry:

Data and Probability Connections Debra A. Perkowski, Michael Perkowski, 2007 Part of a project funded by the National Science Foundation to improve the quality of mathematics and science teaching in grades K-12 this new guide models the student centered approach recommended by the National Council of Teachers of Mathematics to teach introductory statistics. Provides future middle grade mathematics teachers with a strong foundation connecting the mathematics they are learning with the mathematics they will be teaching. Gives enhanced meaning to formulas via a visual or geometric approach. Uses numerous illustrations to assist readers in making explicit connections between a typical college elementary statistics course and the statistical concepts taught by middle school teachers. For anyone interested in introductory statistics.
