

An early "A" model—note the Jimminy Cricket nose.

Ski-equipped Hercules changing the face of icebound outposts.

Navy C-130 on the flight deck of the U.S.S. *Forrestal*.

first "A" model. Sure, the Hercules was *strong*—but who could know that a short haul, tactical bantam rooster would have roles of attack, recon, rescue, strategic airlift, and aerial refueling?

Ski-equipped 130's have made thriving villages of ice-bound outposts in Alaska and Antarctica. The Hercules has dwarfed the flight deck of the aircraft carrier USS *Forrestal*. And the painful, eardrum splitting whine of the Allison/Hamilton Standard combination has been like music and answered prayers to downed airmen and thousands, perhaps millions, of refugees from floods, earthquakes, and enemy attack over the past 20 years.

Some described the 130 as looking much "like a hen about to squat on an egg." Other descriptions were even less complimentary. A new radome, props, and external tanks have changed the appearance of the bird, though not for the better, many argue. But regardless of its ugly-duckling ground appearance, the Hercules moves with the grace of the great white swan when in its true environment—aloft.

What's in a Name

Hercules was a Greco-Roman mythological hero known
