Book of Mormon Seminary Home-Study Guide The Church of Jesus Christ of Latter-day Saints, 2013-10-22 The home study seminary program is designed to help you strengthen your understanding of the gospel of Jesus Christ and apply its teachings in your daily life through a study of the scriptures. For your study this school year you will first complete reading assignments from the scripture text for this course the Book of Mormon and then you will complete the individual lessons. Once a week you will meet with a seminary teacher to submit your work and participate in a weekly lesson. Seminary is a daily religious education program. Prayerfully studying your scriptures should be a daily practice. You will need to work on your seminary assignments each school day even though you will not attend a seminary class each day. There are 32 units to be completed during the course. The reading chart on page viii shows what you should study for each unit. Your teacher will help you understand when each unit is due. The lessons in this study guide should each take about 30 minutes to complete in addition to your daily scripture study. You should have two scripture study journals or two notebooks separate from your personal journal in which you will write the assignments from the study guide activities. Each week that you meet with your teacher you should turn in the scripture study journal containing the completed assignments from the study guide activities you completed for that week. Your teacher will read and respond to the assignments and return that scripture study journal to you the following week. You could also write your responses on paper in a loose leaf binder and turn in the pages you did that week. Then when your teacher returns the pages you could put them back into the notebook.
