Navneet Singh, This is the story of Sunny a character who spent part of his life in the country Serendib Based on the title you might assume that this is a humorous or serious account of his 32 month incarceration He is not some imprisoned revolutionary or protester who spent their entire life expressing his or her views and points of view while imprisoned His story on the other hand is told in a modern style with some freedom and a lot of obstacles By reading the first two paragraphs you can see he wasn t in jail but the way he spent these months was anything but Based on the situation this book covers a wide range of themes beginning with the arrival in the jail and finishing with the release To conceal their true identities all the real characters and locations were given new and anonymous aliases [Daily Graphic](#) Ransford Tetteh,2008-12

**Troubleshooting and Repairing Commercial Electrical Equipment** David Herres,2013-06-12

Publisher s Note Products purchased from Third Party sellers are not guaranteed by the publisher for quality authenticity or access to any online entitlements included with the product A PRACTICAL GUIDE that shows maintenance and construction electricians how to successfully repair commercial and industrial electrical equipment Troubleshooting and Repairing Commercial Electrical Equipment is the first work that offers a practical approach to diagnosing and repairing commercial industrial electrical equipment covering everything from motors computers elevators and fire alarm systems to heavy duty ovens and audio equipment If you are a licensed construction or maintenance electrician who repairs malfunctioning industrial electrical equipment this one of a kind guide can help you become more competent in your profession Inside you ll find ways to become faster more efficient and able to achieve a much higher success rate in restoring large electrical equipment without damaging it introducing an additional defect or creating a hazard This invaluable resource also includes information for those seeking licensing and certification as well as different measures that should be taken to ensure that a UL or other agency listing is not voided Presents a new system of diagnostics based on the difficulty of each procedure and the probability of its success Emphasizes a practical approach to ensure that equipment is fixed properly Uses a blend of basic electrical theory and sophisticated mathematical equations that both experienced technicians and apprentices can
