Present absences Linnea Bodén, 2016-08-23 The aim of the study is to explore how school absenteeism as a material discursive phenomenon is produced in the practices of humans and nonhumans when absences and presences are registered and managed through digital technologies How is the phenomenon of school absenteeism produced when absences and presences are digitally registered How does the phenomenon of school absenteeism emerge when both human and nonhuman entanglements are included in the apparatuses of knowing Through a posthumanist approach the study engages empirically with two types of software for the registration of absences and presences at three Swedish schools The results show that digital registration blurs the division between absences and presences and queers what is absent and what is present Digital registration produces school absenteeism as a phenomenon for all students every day and at the same time as mainly for the students who are present most of the time A conclusion that is drawn from the study is that digital registration makes absences present by the visualization and performative repetition of the registration The study points to how school absenteeism is always in the making and proposes the concept of school absenteeing as a productive way to open up new possibilities in relation to students absences Syftet med studien är att undersöka hur skolfrånvaro som materiellt diskursivt fenomen produceras i olika praktiker för frånvaro och frånvaro hanteras och registreras med hjälp av digitala system Hur produceras fenomenet skolfrånvaro för elever frånvaro och frånvaro registreras digitalt Hur framträder fenomenet skolfrånvaro för lärare och elever som inte inkluderats i kunskapsproduktionen I studien skapas empiriska engagemang tillsammans med två digitala system för registrering av frånvaro och frånvaro på tre svenska skolor Genom ett posthumanistiskt perspektiv visar studien att den digitala registreringen suddar ut gränserna mellan frånvaro och frånvaro I sammanvåningar med digitala system blir fenomenet skolfrånvaro mer komplext eftersom den digitala registreringen producerar skolfrånvaro som ett fenomen för alla elever varje dag Samtidigt reducerar den digitala registreringen skolfrånvarons komplexitet och skapar ett fenomen för de elever som för det
