Argumentative Essay

Another animal lay dead on the table. Another victim of "research". Animal testing has proven an amazing way to learn how to cure various diseases, however it has come at a cost. Animal blood has been spilled so that we can survive. And even though it is useful, it is painful and harsh. Even though animal testing is a last resort and can help cure diseases, animal testing should not continue since the animals can die and don't get a choice.

Using animals for testing is amazing for us, but not so amazing for the animals on account of the fact that the animals can, and do, die. Knowing the fact that animals can help cure diseases prompts the fact that animals are often infected with said diseases so we can cure them, which, in turn, makes the animal go through the pain of the diseases and symptoms, which may kill them. According to paragraph 15 of "We Need to Stop Animal Testing", the author states, "Although humans often benefit from animal successful animal research, the pain, the suffering, and the deaths of animals are not worth the possible human benefits." This evidence shows how harsh the testing environments are and that the animals are not treated well. They are in pain, suffering through those procedures just so we can get more scientific research and more medicine to let us live. Animals are put through enough already, and dying to a test should not be one of them.

When testing starts, animals don't get to choose whether or not they are picked first to test on, or whether they're tested on at all. Scientist raise these animals in captivity for most of their lives and they don't get to see the wild. According to paragraph 17 of "We Need to Stop Animal Testing", the author states, "Yet animals rights are violated when they are used in research because
