### **Logical Argument in the Research Paper** Russ Ward, 1997

Logical Argument in the Research Paper operate on the premise that collegiate level writing, when cast in its most significant and sophisticated form, is argumentative. Students are shown how writers examine a potential topic, establish a stance upon that topic, defend the stance, avoid reasoning and ethical errors, and in general say something meaningful about the topic. It also includes instruction about finding sources, gathering information from them, and correctly documenting them. However, the emphasis remains on how effective writers evaluate sources, think about the information they discover, prepare a fair and informed argument, rethink and revise the argument, and finally present an argument in its completed form. Logical Argument in the Research Paper will help students learn some of the reasoning processes that all writers use when composing the academic argument.

argument and literature     **Writing Essays** Harrison Stewart, AI, 2025-03-06 Writing Essays is a comprehensive guide designed to transform the daunting task of essay writing into an achievable skill. This language arts textbook focuses on fundamental elements such as crafting strong thesis statements, developing well-structured paragraphs, and supporting arguments with credible evidence. It emphasizes that effective essay writing is not merely a formulaic exercise but a dynamic process of critical thinking. The book draws upon the historical context of rhetoric and argumentation from ancient Greeks to modern scholars, adapting these principles to contemporary academic and professional writing. The book argues that mastering essay writing enhances communication skills applicable in various settings. It guides readers through each stage of the essay writing process, beginning with an introduction to core concepts and the importance of audience awareness. Dedicated chapters explore thesis statements, paragraph construction, and evidence-based argumentation, culminating in refining writing through revision strategies and stylistic considerations. Practical exercises and examples are integrated throughout to reinforce learning, making it a valuable resource for students and anyone seeking to improve their persuasive writing abilities. Writing Essays uniquely emphasizes critical thinking and audience awareness, encouraging writers to develop their own voice and tailor arguments effectively. Rather than providing rigid rules, it promotes an active approach to writing, emphasizing creativity and critical analysis. The book progresses logically, building from basic concepts to more complex elements of essay construction, ensuring a solid foundation in academic writing.     **Taking a Stand**, 1996 This book was assembled to help college writers learn strong skills for writing argumentative academic essays, purposeful position papers that develop a strong argument and that utilize not simply display ideas and words from sources. Book Overview     **Advances in Corpus-based Research on Academic Writing** Ute Römer, Viviana Cortes, Eric Frigina, 2020-02-15 This volume showcases some of the latest research on academic writing by leading and up-and-coming corpus linguists. The studies included in the volume are based on a wide range of corpora, spanning first and second language academic writing at different levels of writing expertise, containing texts from a variety of academic disciplines and sub-disciplines, and of different academic registers. Particularly novel aspects of the collection are the inclusion of research that combines rhetorical moves with multi-dimensional analysis, studies that cover both fixed and variable phraseological items, lexical bundles, phrase frames, constructions, and work that is based on corpora of English as an academic lingua franca. Going beyond merely summarizing their findings, the authors also discuss what their research means for academic writing practice and pedagogical settings. The volume will be of interest to researchers, students, and teachers who would like to expand their knowledge of how academic writing functions and what it looks like in a variety of contexts.     **Writing in the Disciplines** Mary Lynch Kennedy, Hadley M.
