Arizona State History:

A History of the Southwest Thomas E. Sheridan, 1998 Something about the Southwest draws people who are independent From the Apaches who migrated south six hundred years ago to the Spanish exploring north Mexico not much later to the Anglo American who ventured west these were people who wanted to live as one Comanche leader said where the wind blows free and there is nothing to break the light of the sun A History of the Southwest explores these people their clashes with each other with the environment and finally with the forces of an increasingly complex economy Thomas Sheridan takes the behavior of individuals Geronimo Wyatt Earp Theodore Roosevelt and local cultural groups Pueblo Indians southern European miners ranchers and shows how it was acted out on the larger stage of the environment economics and politics

Arizona Thomas E. Sheridan, 1995 Thomas E Sheridan has spent a lifetime in Arizona living off it and seeking refuge from it He knows firsthand its canyons forests and deserts he has seen its cities exploding with new growth and like many other people he sometimes fears for its future In this book Sheridan sets forth new ideas about what a history should be Arizona A History explores the ways in which Native Americans Hispanics and Anglos have inhabited and exploited Arizona from the pursuit of the Naco mammoth 11 000 years ago to the financial adventurism of Charles Keating and others today It also examines how perceptions of Arizona have changed creating new constituencies of tourists environmentalists and outside business interests to challenge the dominance of ranchers mining companies and farmers who used to control the state Sheridan emphasizes the crucial role of the federal government in Arizona s development throughout the book As Sheridan writes about the past his eyes are on the inevitable change and compromise of the present and future He balances the gains and losses as global forces interact more and more with local cultural and environmental factors **Arizona State History**

Focusing on two Arizona towns that had their origins in mining bonanzas Tombstone and Jerome historian Eric L. Clements offers a rare study dissecting the process of bust itself the reasons and manners in which these towns declined as the mining booms ended Tombstone was the site of one of the great silver bonanzas of the nineteenth century a boom that started in the late 1870s and was over by 1890 Jerome's copper deposits were mined for much longer beginning in the 1880s and enduring until the 1930s But when the mining booms ended each town faced its decline in similar ways The process of decline was more complex than superficial histories have indicated and Clements discusses the role of labor unions in trying to stave off collapse the changing demography of decline the nature and expression of social tensions the impact on institutions such as churches and schools and the human responses to continued economic depression But bust involved more than a steady decline into ghost town status Clements discovers the towns remaining residents employed numerous strategies to survive and reduce household expenses In the end both towns reinvented themselves as late twentieth century tourist attractions
