## TASK 3: Designing your Park

Now you're ready to start to create a design for a water park. Your task, Christiansen-Mallingpoo, is a very-controlling process. She wants you to include specific attractions and renovations in your design. She prepared to answer her questions before you have had enough time to adequately emphasize what you are doing. Note well, she wants it to be done on a large sheet of graph paper no less than 12x16 squares. Use mathematical knowledge to make the park the best it can be. She has been told to yell at you if you do not do this properly. Therefore starting your design, identify the circles on your paper, and use a ruler to draw in the x and y axes. Then, you need to plan the appropriate entrance points (where the line starts) and each attraction on the graph paper and draw in the remaining parts of the attraction around it in a creative fashion. Try to spread them out as much as possible. Use a pencil to draw the lines and then go back and color them in with colored pencils.

Items to be included in the design are listed below:

- Water slides
- Swing bridges
- 3 different water slides from your imagination
- Fountain area
- Lazy river
- Christiansen-Mallingpoo
- Kiddie pool
- Water park
- Swing bridge
