such as experience degree of preparation and fitness and other items into account They use these and by relying on their own experience devise a training program which allows special consideration for each shooter s capabilities In spite of the difference in details technique or method there is much that is common to the training of advanced marksmen that in the opinion of leading coaches and shooters applies to everyone without exception This manual endeavors to present in a detailed comprehensive manner these universal applications Advanced pistol marksmanship training must of necessity avoid the involved and exceedingly complex because it is an activity whose participants form a great cross section of our nation
