Byzantine Materiality Evan Freeman, Roland Betancourt, 2024-06-04 This volume explores the power of matter and materials in the Eastern Roman Empire also known as Byzantium Recent attention to matter as dynamic and meaningful constitutes an emerging interdisciplinary field of inquiry known as materiality new materialism or the material turn Materials can be symbolic but matter can also act on human subjects This volume builds on these insights to consider the role of matter materials form and embodied experiences in Byzantium In many respects Byzantine materiality represents a continuation of its Greco Roman inheritance which was also shared by neighboring peoples such as the Umayyads and Abbasids But the Byzantines also developed their own unique perspectives on matter and form as with their parsing of the sacred materialities of icons the Eucharist and relics Chapters in this volume consider the cultural meanings and functions of materials such as gold and ivory the materiality of icons and relics experiences of objects as well as Byzantine philosophies of matter and form Materiality takes center stage in Byzantine constructions of power luxury belief and identity which will be of interest to scholars and students of Byzantium and the wider medieval world History as Literature in Byzantium Ruth Macrides, 2016-12-05 Although perceived since the sixteenth century as the most impressive literary achievement of Byzantine culture historical writing nevertheless remains little studied as literature Historical texts are still read first and foremost for nuggets of information as main sources for the reconstruction of the events of Byzantine history Whatever can be called literary in these works has been considered as external and detachable from the facts The classical tradition inherited by Byzantine writers the features that Byzantine authors imitated and absorbed are regarded as standing in the way of understanding the true meaning of the text and furthermore of contaminating the reliability of the history Chronicles whose language and style are anything but classicizing have been held in low esteem for they are seen as providing a mere chronological exposition of events This book presents a set of articles by an international cast of contributors deriving from papers delivered at the 40th annual Spring Symposium of Byzantine Studies They are concerned with historical and visual narratives that date from the sixth to the fourteenth century and aim to show that literary analyses and the study of pictorial devices far from being tangential to the study of historical texts are preliminary to their further study exposing the deeper structures and purposes of these texts The Byzantine World Paul Stephenson, 2010-12-20 The Byzantine World presents the latest insights of the leading scholars in the fields of Byzantine studies history art and architectural history literature and theology Those who know little of Byzantine history culture and civilization between AD 700 and 1453 will find overviews and distillations while those who know much already will be afforded countless new vistas Each chapter offers an innovative approach to a well known topic or a diversion from a well trodden path Readers will be introduced to Byzantine women and children men and eunuchs emperors patriarchs aristocrats and slaves They will explore churches and fortifications monasteries and palaces from Constantinople to Cyprus and Syria in the east and to Apulia and Venice in the west Secular

and sacred art profane and spiritual literature will be revealed to the reader who will be encouraged to read see smell and touch The worlds of Byzantine ceremonial and sanctity liturgy and letters Orthodoxy and heresy will be explored by both leading and innovative international scholars Ultimately readers will find insights into the emergence of modern Byzantine studies and of popular Byzantine history that are informative novel and unexpected and that provide a thorough understanding of both

Goldwyn, 2017-11-29 Byzantine Ecocriticism Women Nature and Power in the Medieval Greek Romance applies literary ecocriticism to the imaginative fiction of the Greek world from the twelfth to fifteenth centuries Through analyses of hunting gardening bride stealing and warfare Byzantine Ecocriticism exposes the attitudes and behaviors that justified human control over women nature and animals the means by which such control was exerted and the anxieties surrounding its limits Adam Goldwyn thus demonstrates the ways in which intersectional ecocriticism feminism and posthumanism can be applied to medieval texts and illustrates how the legacies of medieval and Byzantine environmental practice and ideology continue to be relevant to contemporary ecological and environmental concerns
