## Artesian Spas Manual:

Dun-Camp's Tour Manual ... ,1929      Moody's Transportation Manual ,1956      New Hampshire Register, State Yearbook and Legislative Manual ,2007      Thermalism in the Roman Provinces Silvia González Soutelo,2024-08-22 This book is focused on the role of thermal establishments with mineral medicinal waters in the different territories of the Roman Empire including their symbiosis with the landscape as well as the ways in which their construction was adapted to give greater comfort to those who came to take advantage of their health giving properties      Healing Waters Loring Bullard,2004 Missouri's mineral springs and resorts played a vital role in the social and economic development of the state In Healing Waters Loring Bullard delves into the long history of these springs and spas concentrating particularly on the use and development of the mineral springs from 1800 to about the 1930s During this period there were at least eighty sites in the state that could be described as resorts Because so many people were drawn to the springs by their faith in the healing virtues of the springwater towns were frequently founded at the mineral springs These places fought hard to capture the attention of Missourians who were seeking better health relaxation or good times in the late 1800s and early 1900s Bullard first examines the development of mineral water resorts in Europe from ancient times early spa traditions in America and Missouri's frontier spas He then discusses the establishment of saltworks at the state's saline springs and the importance of the early salt trade the brisk business that grew around the bottling of mineral waters the use and development of mineralized groundwater resources the geologic and biologic factors that create Missouri's mineral waters and public and professional belief in the curative values of mineral waters Healing Waters also traces the demise of Missouri's mineral water resorts and towns Well into the twentieth century when modern medicine had seemingly taken hold many physicians and scientists continued to proclaim the medicinal virtues of mineral waters However by the second quarter of the twentieth century medical science and popular opinion had discounted the immediate medical usefulness of mineral waters As advances were made in microbiology and biochemistry and with the inherent promise of drug cures orthodox medicine began to turn a cold shoulder on mineral water treatments Spa treatments with their long regimens also did not fit well with the increasingly fast paced lifestyles of the public By visiting the sites gathering local historical accounts interviewing local citizens and photographing remaining artifacts Bullard has done a masterful job in providing the answers to why these vibrant social centers came to be and why they faded      Special Publication ,1970      The Medical times ,1844      Medical Record George Frederick Shrady,Thomas Lathrop Stedman,1916      *Budapest-A Central European Capital* György Enyedi,Viktória Szirmai,1992-07-14 The World Cities series offers up to date authoritative and challenging profiles of the world's main urban centres Each book blends urban history sociology ecology economics politics transport architecture and built environment into a fascinating portrayal of the contemporary urban scene The series covers the major world cities including the developed world metropolises as well as important cities in the Third World cities in socialist countries both

industrial and Third World and classic cities like Vienna Some 35 volumes are planned for the series which will be concluded by a comparative volume In this lively and authoritative study the authors begin by tracing the historical development of Budapest over a 2000 year period covering its emergence as a key central European capital during the middle ages and subsequently as part of the powerful Austro Hungarian empire in the late 19th early 20th century and more recently its changing geopolitical role following World War II Following the familiar World Cities series format the book then goes on to focus on key themes such as the role of geographical location in different stages of urban development including geopolitical factors the Danube tourism etc environmental problems influences on architecture and urban planning demographic patterns and impact of industrialisation The book concludes by examining Budapest s long term master plan adopted in 1985 from the perspective of the various alternatives for its future social and political development Bentonite Deposits in the Ingomar-Vananda Area, Treasure and Rosebud Counties, Montana Fathi Habashi, Maxwell K.
