Rogue Derelict Joseph R. Lallo, 2018-10-17 Rogue Derelict is pulse pounding side story set in the universe of Lindsay Buroker's Fallen Empire Series In the chaos following the fall of the empire Benita Castor wants nothing more than to live a nice quiet life She thought she made all the right decisions What could be safer than becoming an accountant Where could she be more secure than the

industrial fringe of the empire's most civilized planet. Yet somehow she finds herself in the employ of a crime boss and is shipped off to audit a recent acquisition in a forgotten corner of the system. Her new assignment is an old Kirian space station being developed by Nori Veshcha, an enterprising woman with big plans for the relic. Nori is overflowing with ambition, innovative ideas and confidence, though her crew leaves something to be desired. Her chief technician, Blick Mathson, is a man more familiar with collecting debts than repairing ships. The only other crew member, her personal valet, Lefty Hamermill, is a dim-witted but well-meaning grunt with secondhand cybernetics. Not much of a workforce to tackle the task of converting a centuries-old hunk of junk into a cutting-edge resort, but Nori is nothing if not determined. At first the assignment has the makings of an unpleasant but uneventful enterprise, even if Nori is somewhat overly cool. Blick is a bit overly warm and Lefty is just overly Lefty. When a second relic of a bygone era makes an unscheduled arrival and its crew assumes Benita is their Kirian commander, she and the others realize the echoes of the past could have grave consequences for their future. Can a mismatched skeleton crew on a malfunctioning space station rise to the challenge, or will a remnant of history remind the system that some threats aren't gone—they're simply forgotten?

The fug that poisoned the world has struck the Wind Breaker crew. They must split up, seek the aid of old rivals and brave secret facilities to find the substance that may be the key to recovery. Join Nita and her friends on what may well be their final adventure. *Contaminant Six* is the sixth novel in the critically acclaimed Free Wrench series of steampunk adventures.

Lex, Michella, and Squee are once again joined by the mercenaries Silo and Garotte. Along the way, they'll need plenty of help from mad engineer Karter Dee and his AI, Ma. After butting heads with the megacorporation known as VectorCorp, it was only a matter of time before Lex, Alexander, and his girlfriend, Michella Modane, would face the consequences. It is remarkable what a single corporate agent with the resources of a multi-global conglomerate can do to a person's career. In the space of a few days, Lex is looking for work and Michella is

feeling pressure from the network to ease off the hard hitting stories Not one to be silenced Michella quickly hatches a plan to continue her investigations under the guise of a fluff story about a so called extraterrestrial and who better to be her personal driver than Lex Meanwhile mercenaries Silo and Garotte are still nipping at the heels of the terrorist group known as the Neo Luddites Rumors of an attempt to secure a devastating weapon bring the pair to a forgotten little planet in an undeveloped corner of the galaxy Circumstances require that local authorities lay claim to the terrorists apparent target but what sort of threat could one gangly collection of anatomical curiosities pose to the galaxy The answer to that question will put our heroes to the test and leave a whole world hanging in the balance
